## ACHIEVEMENTS

- Awarded \$50 prize for RPA project video by UiPath.
- First student to secure placement independently in the third year.

## INTERESTS

Learning new Skill • Love to explore Technology • Reading • Travelling

## EXPERIENCE

### AROOPA TECH PVT LIMITED | SOFTWARE ENGINEER

April 2023 - Present | Chennai, IN

#### CRUSH (Next Js Web Application)

- Developed a web application from scratch using TypeScript, deploying on Vercel for seamless integration
- Built GraphQL schemas for efficient data querying and utilized MongoDB Atlas for robust database management.
- Integrated AWS Cognito for user management, enhancing security, and OpenAI APIs for advanced AI chat features.
- Implemented voice-to-text functionality with browser speech-recognition, improving accessibility for multi-language support.
- Contributed to the UI development of the React Native app, enhancing user experience through intuitive design.

#### FlyDetour (MERN Stack Web Application)

- Developed the entire application, including comprehensive end-to-end unit testing, ensuring robust functionality and reliability.
- Utilized REST APIs for listing and booking hotels and flights, improving accuracy of search results and integrating a secure payment gateway.

#### Shopify Projects(10+)

- Integrated Authorize.net payment gateway for managing transactions, utilizing Azure Functions in Node.js to bind transaction details within Shopify.
- Embedded Jotform within themes, managing data submissions from Jotform to Shopify using Google Cloud Functions.
- Enhanced search functionality with Elasticsearch, managing data binding between Elasticsearch and Shopify using AWS Functions with SQS Dequeue for handling bulk requests.
- Implemented Checkout Extensibility and Shopify Functions for discounts, payment customizations, and checkout UI updates for various clients.

### AROOPA TECH PVT LIMITED | SOFTWARE DEVELOPER INTERN

Dec 2022 - March 2023 | Chennai, IN

- Developed high-quality websites from mockups and integrated various third platforms with Shopify.
- Worked on plus stores for some large scale clients and added script editors and store and flows for high level customizations
- Embedded React Pages on Shopify Store.
- Worked on Shopify REST APIs , GraphQL APIs for doing operations externally from store.

### AVASOFT PVT LTD | SALESFORCE DEVELOPER INTERN

May 2022 - Oct 2022 | Chennai, IN

- Gained expertise in frontend development and mastered the sales and service flow of business operations.
- Mastered SFDC development including Lightning Application, Apex Language, and Visual Force pages to enhance business processes.
- Provided support for a client project on Commerce Cloud, resolving issues for US-based sales representatives to improve efficiency.
